

AI Use-Case Intake & Registration Form

Meridian National Bank — Model Risk Management Form MRM-INT-01 · Submitted by first line ·
Reviewed by second line

Complete before validation and before production use. This record creates the inventory entry and drives risk tiering.

Section A — Identification

Field	Entry
Use-Case ID	UC-2041
Use-Case Name	Commercial Banking Policy Knowledge Assistant
Foundation Model (shared component)	FM-0007 — Anthropic Claude via Amazon Bedrock
Use-Case Owner (first line)	Director, Commercial Banking Operations
Business Sponsor / LOB	Commercial Banking
Developer	In-house (Enterprise AI Platform team)
Vendor vs. In-house	In-house application on third-party foundation model
Submission date	Current cycle
Development status	Validation

Section B — Purpose and Use

Field	Entry
Model Purpose / Intended Use	A retrieval-augmented assistant that answers relationship managers' questions about the Bank's internal commercial credit policies and procedure manuals. Returns cited passages from approved policy documents.
Restrictions on Use	Informational only. Must not be used to make or communicate credit decisions, set pricing, or generate customer-facing content.
Model Type / Methodology	LLM + RAG over an approved internal document collection
Decision made by the system	None — provides reference information; the human makes all decisions

Section C — Data

Field	Entry
Data Sources	Approved internal policy and procedure manuals only (source allow-list)
PII / Consumer Data Flags	No PII. No customer, applicant, or account data in prompts or retrieval corpus
Data residency	In-VPC (Bedrock); no data leaves Bank perimeter

Section D — Risk Context (drives tiering)

Field	Entry
Consumer impact	None (internal reference)
Autonomy / human-in-the-loop	Full human-in-the-loop — RM reads the cited answer and independently applies judgment
Reversibility	Fully reversible (informational; no action taken by the system)
Regulatory application	Internal / none
Materiality	Low
Proposed Risk Tier	Tier 3 (Low)

Section E — Attached Evidence

- `evidence-data-governance.md` — data scope and privacy assessment
- `evidence-rag-grounding.md` — source allow-list, citation and groundedness controls
- `evidence-human-oversight-raci.md` — oversight roles and review workflow
- `evidence-monitoring-plan.md` — KRIs, cadence, and re-tiering trigger
- Shared: `foundation-model-registration-aibom.md` (FM-0007)

Section F — Owner Attestation

The use-case owner attests that the information above is accurate, that the use case operates within the stated restrictions, and that the attached controls are implemented. Signed: Director, Commercial Banking Operations.
